Updated individual Midterm project page count.

Ten Total Pages for this Midterm Project.

6 Content pages about your home town or favorite place you have visited.
1 Contact page or an about page (information about you when you went to your favorite place.

1 Newer version of your Exercise 3 – I expect to see checkboxes and radio buttons – New image   in thankyou page. Now your exercise 3 must send an email to you and to RITISTprofessor@gmail.com with the information from the form.

1 Page you create of how you completed the full rubric for this Midterm Project.

1 Reference page.

The Reference Page

You must cite all of your references on your 'references' page. You must have HYPERLINKS that work to your sources and a description of what you took from that source and where that is inside this project. Be very clear for each source's hyperlink and include the following:

The DATE that source was updated (I understand it is hard to find that date on some pages)
What you took from that source i.e. picture of what or logo
Where you inserted that information in this project, what page, location on page

An example of what I am looking for on your reference page for each source is the following

http://www.plymouthtwp.org/	Source updated January 8, 2020	Copied town logo and used it in updated survey/form old exercise 4 page form.html in the header
